Heterosexual, contact with at risk partner(s)	4		3		1	
Heterosexual, no at risk partner(s) disclosed	12		6		6	
Child born to a mother with HIV	0		0		0	
Undetermined	8		5		3	

Data Source: Electronic HIV/AIDS Reporting System (eHARS) data

Rate = number of cases per 100,000 population using the corresponding year census estimate as the denominator.

US sex-specific rates do not include 23 children under the age of 13 and 11 adults and adolescents of unknown gender.

NA = not available. Denominators are not available to calculate rates for HIV transmission risk factors
